

# Travelling

It is the going from one place to another for specific reason

by car, train, plane, etc.

It is one of the most important part of education in our life.

A vibrant tropical resort scene. In the foreground, a large, shallow swimming pool is surrounded by dark grey rocks and lush greenery, including several red and orange flowers. Several people are relaxing in the sun or swimming in the pool. In the background, numerous tall palm trees stand against a clear blue sky with a few wispy white clouds. A yellow building with a thatched roof is visible among the trees. Several thatched umbrellas are scattered around the pool area.

Travelling can help to create a bond  
between two people or  
family and friends.

Different places can teach us different  
things.

# Reasons of travelling

Holiday

For Business

For education - to study  
To follow about new cultures

# To see historical places

# For religious purpose

# To visit family / relatives

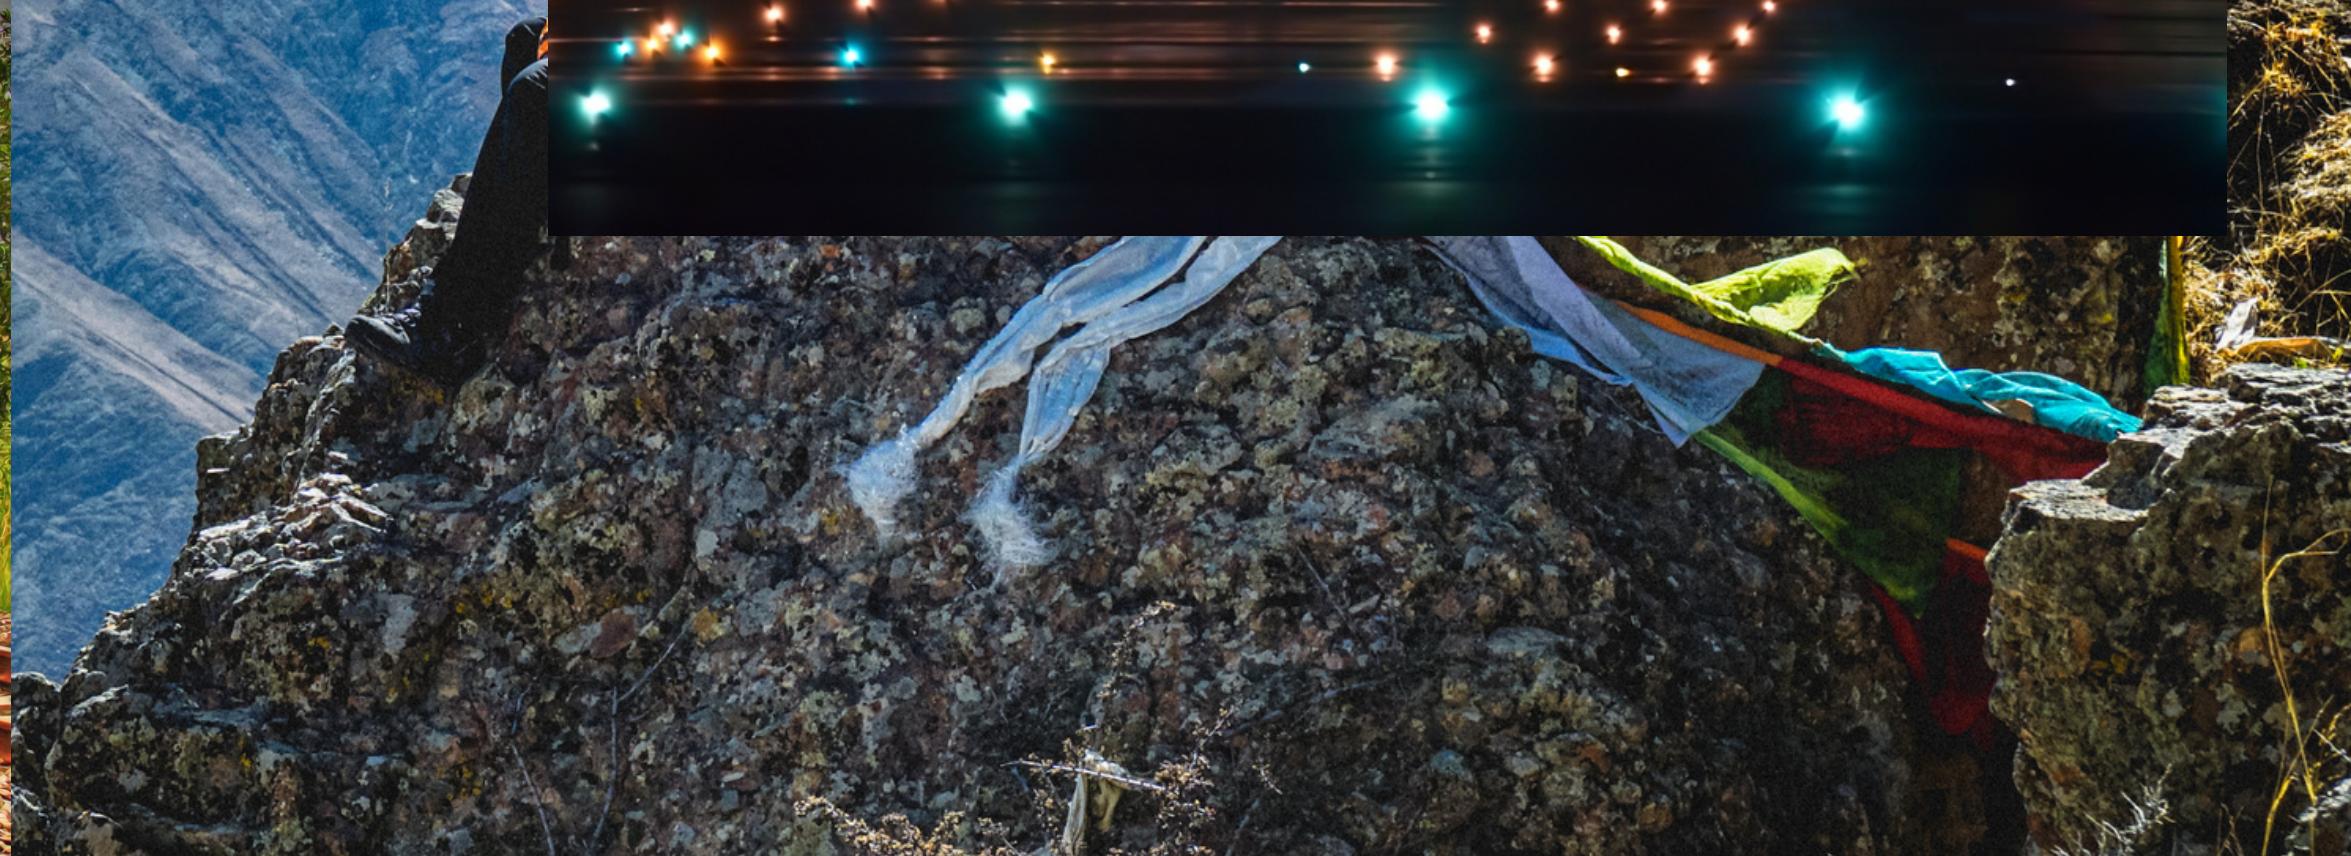

For an adventure

# Ways of travelling

## Aeroplane
